

**WD1127-01**

**WOODEN MEASURING ANGLE**

**MATERIAL AND WEIGHT**

Weight: 2.100 kg

**FUNCTION**

For trolleybus: To stake off the centerline of the overhead contact line in curves and in tangent. To determine the angle of deviation of switches and crossings. For trolleybus and tramway: To determine the angle of ETB/TW crossings.

**COMMENTS**

- For deflection angle of the contact wire of max. 30°
